PHILOSOPHY

The Louis De Poortere philosophy is based on a simple concept : we aim to be more than just a manufacturer of carpets. In branching into home decorating, we have had to increase our creativity to meet your aesthetic requirements, and this has stimulated us to transform generic into magic. Because people are increasingly seeking beauty, elegance, value and comfort for their homes, our designers and technicians have created entire collections that are modern and accessible, and designed to

bring you the upmost pleasure. Because your demands are becoming increasingly specific and your tastes more assured, we have developed bold concepts that are simple and attractive and will enable you to easily reach ultimate sophistication in your floorcovering. At Louis De Poortere you will find rugs, carpets, stair runners and even border rugs, which you could freely mix and match to make your decorating "home sweet home" experience a pleasure. Our passion is to offer you this pleasure.
